● ● ●	Triple-tap	Next track	

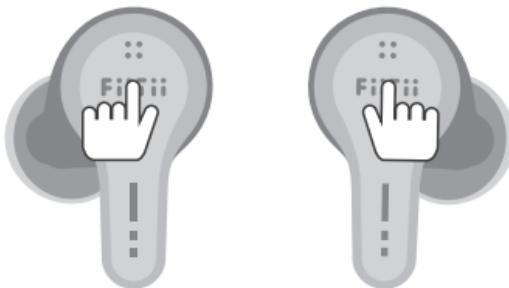

---

PS : The earbuds will automatically turn off if it's not connected to a device for 10 minutes.

## How to reset

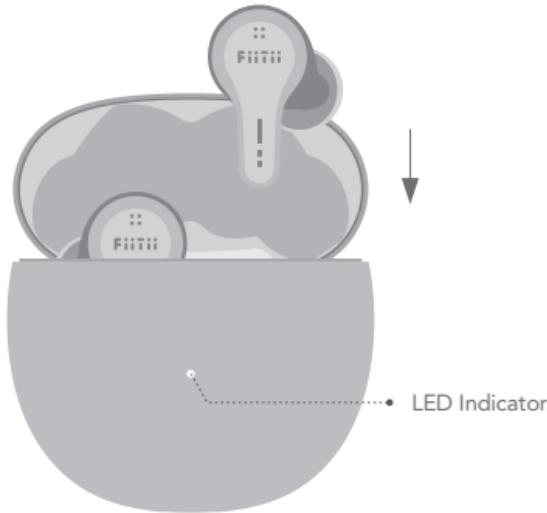

Please operate follow below 4 steps to reset:

- Step 1. Disconnect the earbuds with your bluetooth devices.
- Step 2. Tap each earbud 5 times separately to power off, when succeeded, the earbud's LED light will be off, at the same time you will hear a prompt "power off".
- Step 3. Hold each earbud for about 10-12S till you see both earbuds' LED light off, at the same time you will hear a prompt "power off".
- Step 4. Put the earbuds into the charging box, then get them out, if you see both the earbuds' LED light is flashing, later only one earbud led light flash,means reset is successful.

PS : If single side doesn't work or earbuds are under abnormal condition, please follow the steps to figure out whether earbuds work as ever.

## The LED on the charging case

When earbuds insets into the charging box,  
Power reminder:

- With battery 5-100%: LED on for 3S
- Battery low (less than 5%): LED flash 3S

Charging case Under charging status,  
Led indicator display:

- On charging: LED flash
- Fully charged: LED on

When earbuds on charging, the case's led will be on for 3S, then off.

## FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
